

PSI RE-USE POLICY AND OPPORTUNITIES

MARTIN ALVAREZ-ESPINAR

RAW OPEN DATA — COIMBRA (PT)

DATA IS CRUCIAL NOWADAYS

Neelie Kroes, Vice-President of the EC. Responsible for the Digital Agenda for Europe

OPEN DATA: POLICY AND OPPORTUNITIES

SOME GROUNDS

DIGITAL AGENDA FOR EUROPE

Pillar 1. Digital Single Market

Action 3: Open up public data resources for re-use

Why?

- Public Sector Information is one of the single largest sources of information in Europe.
- Estimated market value is €32 billion

One of the objectives: Amendment of **Directive** 2003/98/EC **on Public Sector Information (PSI) Reuse** (Directive 2013/37/EU)

DIRECTIVE ON THE RE-USE OF PSI

Directive 2003/98/EC

Encourages the Member States to make as much information held by public sector bodies available for reuse as possible

http://ec.europa.eu/digital-agenda/en/european-legislation-reuse-public-sector-information

REVISION OF THE PSI DIRECTIVE (2013/37/EU)

Creation of a **genuine right to re-use public information**: all generally accessible information will become re-usable (even for commercial purposes)

Only some public bodies are excluded

Firstly, national rules may exclude access to sensitive information (e.g., personal information, national security, defence, public security, statistical and commercial confidentiality)

To be transposed into national laws by July 2015

OPEN DATA: POLICY AND OPPORTUNITIES

ACTIONS

ACTION 3: OPEN UP PUBLIC DATA

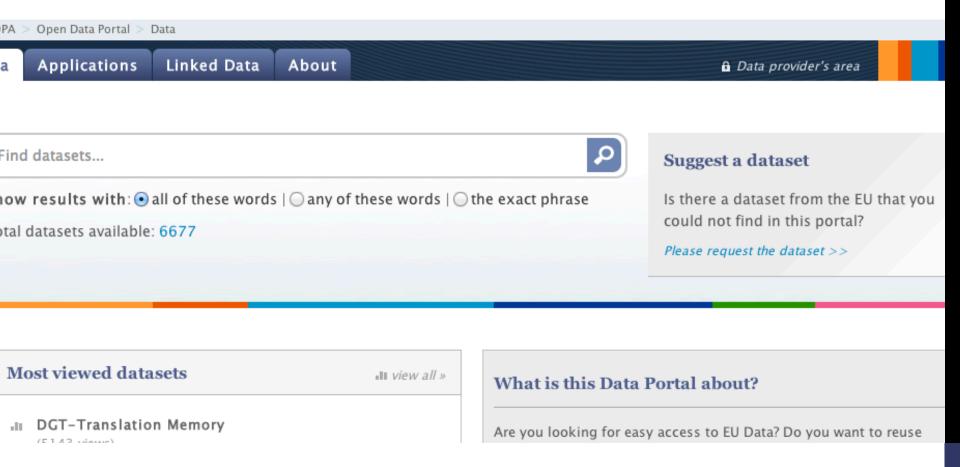

Ongoing Actions:

- Awareness-raising and promotional activities
- Networking across Europe to further stimulation (ePSI Platform, Member States, PSI Alliance, industrial associations, developers and open data communities)
- Bilateral and multilateral discussions with the MSs
- Set of guidelines on Open Data and the re-use of PSI

European Union Open Data Portal

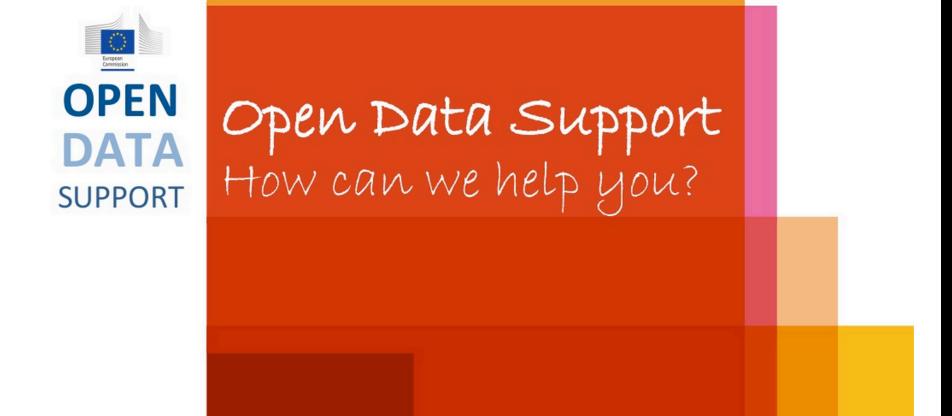

EU OPEN DATA PORTAL

Information from Institutions and other bodies of the European Union (EU)

PAN-EUROPEAN OPEN DATA PORTAL

Federation of Member States' Open Data catalogues (pilot be launch in 2015)

OPEN DATA SUPPORT

Training, consultancy, publishing services

SHARE PSI 2.0

Shared Standards for Open Data and Public Sector Information

EC's funded Thematic Network 40 Partners ⊃ ama 25 Countries

- Identification of best practices
- Harmonise the implementation of the Revised PSI Directive

3-4 December, Lisbon Workshop

https://www.w3.org/2013/share-psi/

EPSI PLATFORM

European Public Sector Information Platform

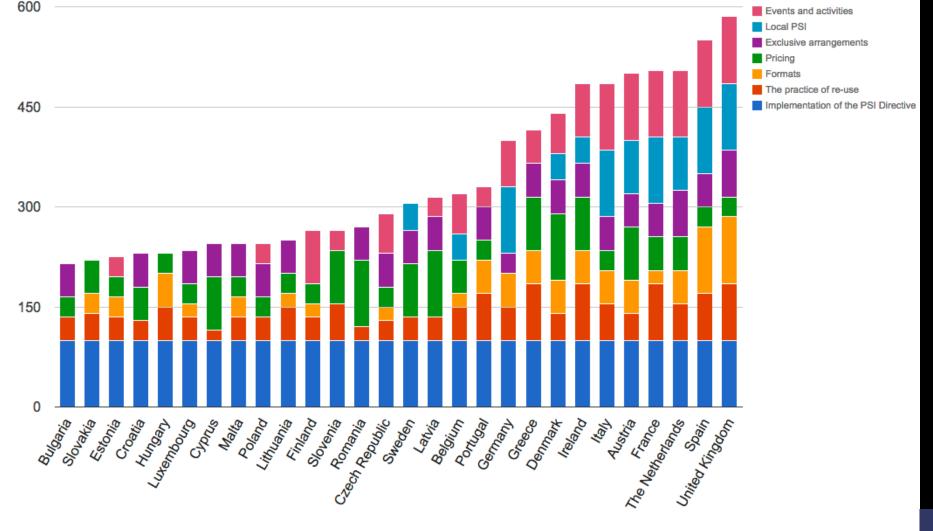

Funded by the **European Commission**Europe's One-Stop Shop on **PSI Re-use**

- News, happenings
- Best practices
- Engaging the community

OPEN DATA: POLICY AND OPPORTUNITIES

LOTS OF GOOD EXAMPLES

About Services API Conta

WHERE TO BUY/RENT A PROPERTY?

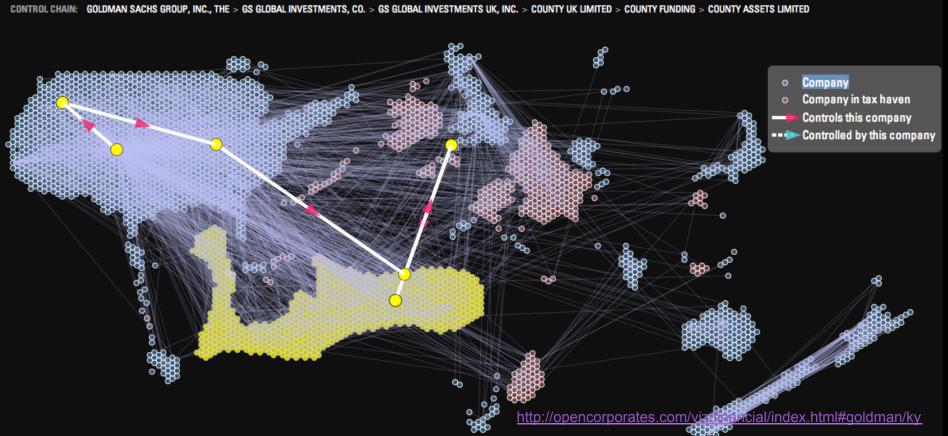

Public Transport accessibility maps + timing [+ properties]

APPEALING VISUALIZATIONS

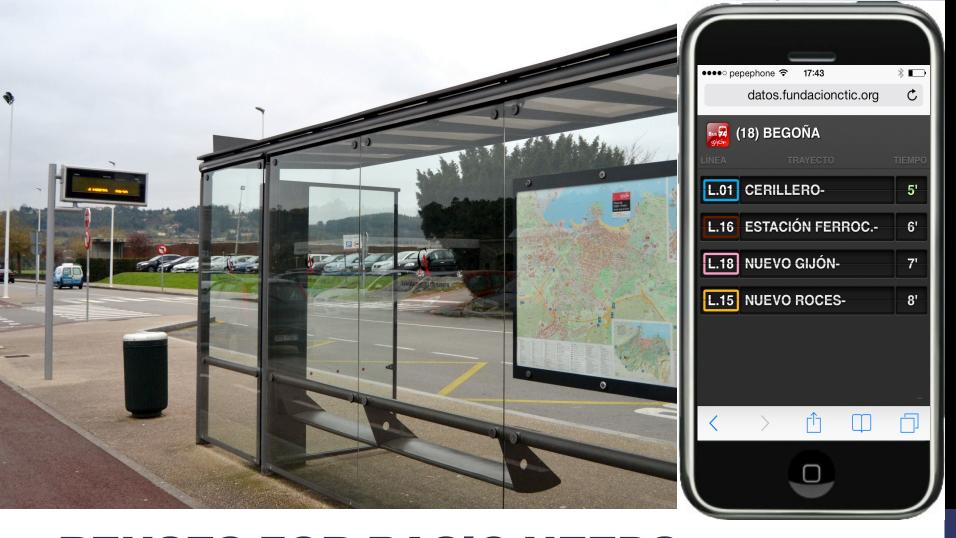

New products, visualizations, services, apps...

ANTI-FRAUD VISUALIZATIONS

OpenCorporates gathers (and opens) information of 80m companies in the world

REUSES FOR BASIC NEEDS

Public transport information for citizens

ALSO FOR BUSINESSES

The same example in a bar in front of a bus stop

ALSO FOR BUSINESSES

The same example in a bar in front of a bus stop

EVEN REUSED BY PUBLIC BODIES

The same example, installed at public facilities

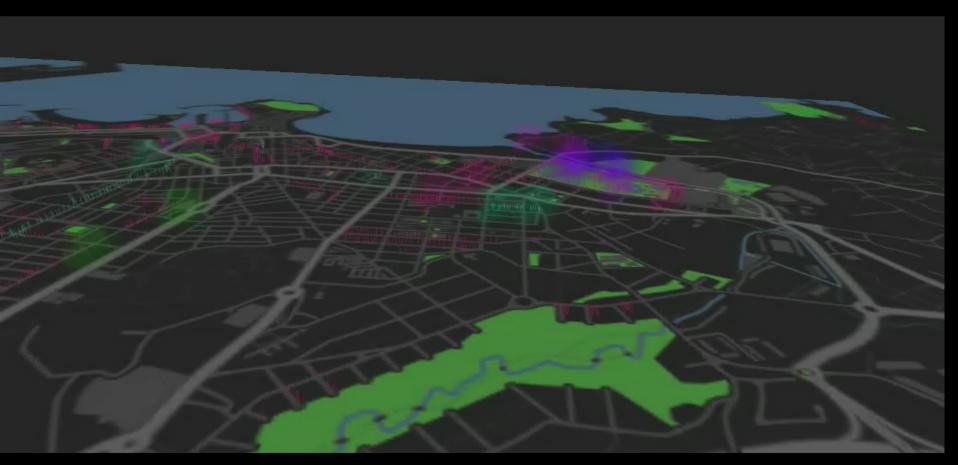

CULTURAL RESOURCES

The Duch National Museum already opens artworks under CC0 (public domain)

UNEXPECTED USES

http://pollen.intheair.es

PSI REUSE AS ART

Levels of different pollen in the air

(Datasets: cartography, map of trees, pollen statistics)

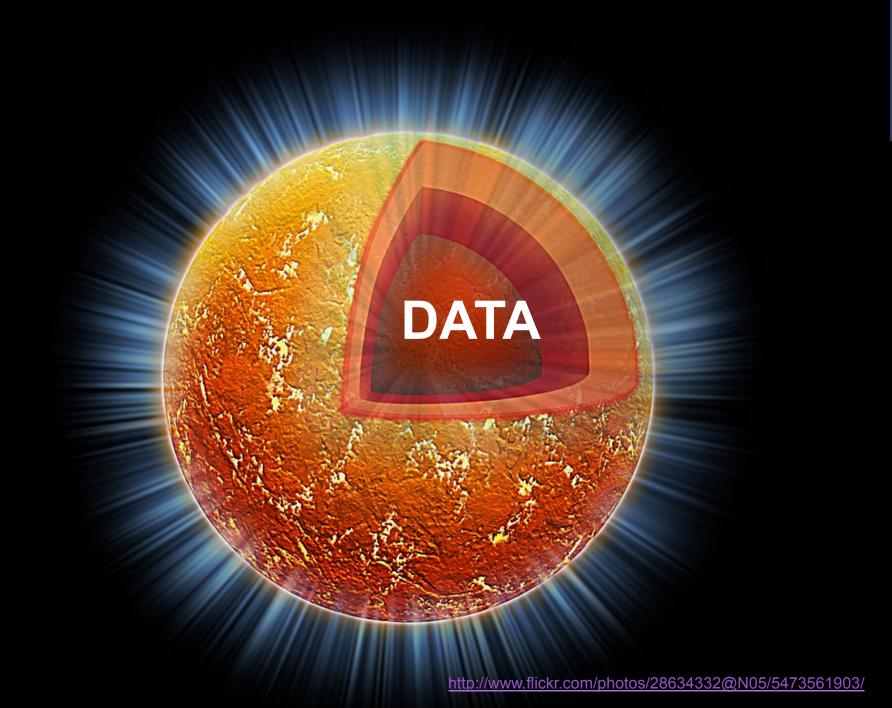

THE BEST IDEA COMES FROM OTHERS

Developers, designers, artists will do a creative use of data

OPEN DATA: POLICY AND OPPORTUNITIES

BUT, HOW?

Basic Open Data by Default Principles:

- Exceptions: intellectual property, personally-identifiable and sensitive information
- Action Plan + Open Data portal

Basic Principles:

Open Data by Default

- Exceptions: intellectual property, personally-identifiable and sensitive information
- Action Plan + Open Data portal

Quality and Quantity

- · Timely, comprehensive, accurate, original, finest level of granularity
- Publication of consistent metadata + active listening

Basic Principles:

Open Data by Default

- Exceptions: intellectual property, personally-identifiable and sensitive information
- Action Plan + Open Data portal

Quality and Quantity

- · Timely, comprehensive, accurate, original, finest level of granularity
- Publication of consistent metadata + active listening

Usable by All

- Free of charge, no bureaucratic or administrative barriers
- Publication in open and non-proprietary formats

Basic Principles:

Open Data by Default

- Exceptions: intellectual property, personally-identifiable and sensitive information
- Action Plan + Open Data portal

Quality and Quantity

- Timely, comprehensive, accurate, original, finest level of granularity
- · Publication of consistent metadata + active listening

Usable by All

- Free of charge, no bureaucratic or administrative barriers
- Publication in open and non-proprietary formats

Releasing Data for Innovation

- Open data promotion to unlock its value
- Publication under open licences, machine-readable formats. Challenges, prizes.

Basic Principles:

Open Data by Default

- Exceptions: intellectual property, personally-identifiable and sensitive information
- Action Plan + Open Data portal

Quality and Quantity

- Timely, comprehensive, accurate, original, finest level of granularity
- · Publication of consistent metadata + active listening

Usable by All

- · Free of charge, no bureaucratic or administrative barriers
- Publication in open and non-proprietary formats

Releasing Data for Innovation

- · Open data promotion to unlock its value
- Publication under open licences, machine-readable formats. Challenges, prizes.

Releasing Data for Improved Governance

- Transparent about our own data collection, standards, and publishing processes
- Publication of technical details about open data policies, practices, etc.

WHAT DATASETS? ALL...

Priorities for release strategic datasets **Geospatial data** Postcodes, national and local maps (cadastral, topographic, marine, administrative boundaries, etc.)

Earth observation and Environment Space and in situ data (monitoring of weather, land and water quality, energy consumption, emission levels, etc.)

Transport data Public transport timetables (all modes of transport) at national, regional and local levels, road works, traffic information, etc.

Statistics National, regional and local statistical data with main demographic and economic indicators (GDP, age, health, unemployment, income, education, etc.)

Companies Company and business registers (lists of registered companies, ownership and management data, registration identifiers, balance sheets, etc.)

Other can be considered as high-value data

THE REAL VALUE OF DATA. STRAVA'S CASE

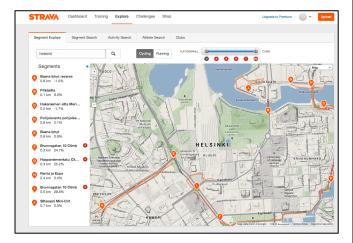

0

Grab a GPS Device

Go Out for a Run or Ride

Oregon Department of Transportation paid \$20,000 for a dataset with activities of about 20,000 cyclists

BIG DATA will help ODOT make decisions about their **policies**, **plans**, and **projects**

REMEMBER... OPEN YOUR DATA

The best idea comes from others!!!

THANK YOU!

martin@w3.org
http://epsiplatform.eu
info@epsiplatform.eu

Use of **open standard licences** in **machine-readable** formats

Following the <u>Open Definition</u>: "Open data and content can be **freely used**, **modified**, and **shared** by anyone for **any purpose**"

If a simple notice is not enough, it is recommended using attribution requirements only (Example: Creative Commons - BY)

GUIDELINES ON CHARGING

Policy of **lowering charges**

Public sector bodies may charge **no more than the marginal cost** (i.e. reproducing, providing and disseminating the documents)

Some exceptions (cost recovery in certain cases)

Economic analysis of PSI impacts
